

## Film Studies: Start of Year 10 Information

CCEA Moving Image Arts GCSE (Course Code: 5350)

### Starting in Year 10 (or during Year 9)

#### Areas covered during Year 9

Students are introduced to the key concepts, terminology and skills for the completion of the course.

- The language of film criticism
- Deconstructing film sequences
- Introduction to Genre & Representation
- Production roles and sequence analysis
- Introduction to film production, sound, mise-en-scene & cinematography
- Production skills – preproduction planning (storyboarding, shot lists, location lists & schedules)
- Using the camera, lighting, sound & editing
- Pre-production skills: sound and editing
- Examination skills: Genre, Representation and sequence analysis

#### Work to complete before you arrive (optional)

Create a short film clip (between 30-90secs) using any digital video camera or mobile phone and editing platform based on the title *'This is me'*.

Familiarize yourself with the features of the six film genres focused on in the GCSE Moving Image Arts course: Horror, The Western, Action/Adventure, Romantic Comedy, Science Fiction and Crime.

Learn about the key stages & roles of film production by watching the series: [Crash Course Film Production](#)

#### Additional resources

Students in Year 9 Film are familiar with terminology and pre-production film-making processes covered in the Film-making pages on the website [lessonbucket.com](http://lessonbucket.com)
